

**Holmes Harbor Water Company, Inc.**  
Board Resolution No. 2018-01  
Vacant Lot Water Service

This Resolution provides guidance and information to the HHWC Board and owners of vacant lots. It is the intent of this Resolution to document the HHWC Board's decision NOT to renew stub-outs for the connections to vacant lots in the event of a re-piping of the main distribution lines on a street within Holmes Harbor Estates, or in the event of the failure of a piping stub-out to a vacant lot in the community.

An exception to this Resolution is made for any vacant lot that currently has a water share and all of its associated HHWC accounts are paid in full. In those instances a stub out for water will be provided to those lots.
